PROFESSIONAL EXPERIENCE

Business & Data Analytics Intern to Full-Time, *Siren Analytics* *Jul 2025 – Present*

- Worked across multiple software products, performing end-to-end business analysis responsibilities.
- Used Replit and AI-assisted development tools to build features in the system, tested, reviewed, and deployed them in collaboration with developers.
- Developed structured Excel templates that enabled clients to prepare and import bulk data into the platform.
- Supported the implementation of BLE beacon technology for a client and contributed throughout the full client journey, from the initial meeting to successful paid adoption.
- Delivered more than 10 tailored product demonstrations using client-specific scenarios to demonstrate how the platform could address their operational needs.
- Led a complete international training program, training a team of 5 people on system configuration, use-case preparation, product demonstrations, and pitching.

Business Strategy & Analytics Consultant Intern to Part-Time, *Ghazi Home* *Mar 2025 – Present*

- Analyzed sales and inventory performance across 60+ product categories using Excel, by including detailed insights on profitability, demand, stock levels, ABC, and BCG analyses.
- Improved operational processes through stakeholder interviews, process mapping & analysis, and automation opportunities.
- Advised management on strategic initiatives, including new store locations, partnerships, and operational improvements.
- Defined the website's complete business logic and end-to-end user flow, translating business needs into detailed functional requirements.

E-commerce Website Optimization Part-Time, *Almoe* *Jan 2024- Jan 2025*

- Achieved a remarkable 118% increase in one client's conversion rate, raising it from 1.06% to 2.31%.
- Developed and executed a series of A/B tests. In a recent test, I achieved a 73.56% increase in the conversion rate and addressed a key issue by decreasing the gap between 'add to cart' and 'checkouts' by 8.12%.
- Provided detailed reports based on data analysis, highlighting successes and areas for further improvement.

Data Analytics Intern, *MACSONS SAL* *Jul 2024 – Aug 2024*

- Analyzed three years of sales data to identify top-selling products and optimize inventory.
- Utilized Excel for data organization and visualization, generating actionable reports.
- Provided strategic insights and recommendations to senior management, improving sales efficiency.

EXTRACURRICULAR EXPERIENCE

Data Hackathon, *AUB MSBA & Siren Analytics* *Apr 2025*

- Won 1st place with my team in a data hackathon organized by AUB's MSBA program and Siren Analytics.
- Cleaned and selected relevant data, analyzed and visualized it using Tableau and Excel. Then presented the findings through a clear and insightful PowerPoint presentation, answering the research question with data-backed insights.

AUB Consulting Club, *Member* *Jan 2024-Apr 2024*

- Actively engaged in weekly case-solving exercises provided by the club.
- Participated in numerous events organized by the club, including:Workshops, Case competitions and networking events.
